

CASE STUDY

VALUE PROPOSITION

- NSF-H1 rated product easily removed excessive sugar buildup preventing machine malfunction, improving sales
- Additives designed to dissolve sugar-based soils and prevent re-crystallization extended time between machine cleanings
- Reduced cleaning time resulted in annual labor cost savings of \$62,400

PRODUCT

LPS® DETEX® FOODLUBE® Sugar Dissolving Fluid

BOTTOM LINE

Improved Machine Performance and Labor Cost Savings:
Convenience Store Drink Dispensing Machines

APPLICATION

- Cleaning of fountain drink and flavored frozen ice dispensing machines

ISSUE

- Fountain drink and flavored frozen ice machines were clogging and malfunctioning due to excessive sugar buildup, creating unsanitary conditions and preventing sales
- NSF-H1 rated products are approved for maintaining equipment where incidental food contact may occur

SOLUTION

- LPS® DETEX® FOODLUBE® Sugar Dissolving Fluid

RESULT

- LPS® DETEX® FOODLUBE® Sugar Dissolving Fluid easily removed the excessive sugar buildup that caused the machines to clog and malfunction, drastically reducing cleaning time by 75% and allowing fountain drink sales to improve
- LPS® DETEX® FOODLUBE® Sugar Dissolving Fluid's complex blend of lubricants, corrosion inhibitors and additives prevented the re-crystallization of sugars, extending time between cleanings.
- New cleaning procedures were implemented across all 650 Southeastern stores, saving an estimated \$62,400 in annual labor cost
